SPONSORSHIP FILE
Dear Company Representatives;

In previous years, by bringing the Public Health experts together in order to discuss the impact of environment on health, we have organized 1st, 2nd and 3rd Congress of Environmental Medicine. But as the time progressed, we have seen that many disciplines had intertwined with environmental health, now we are, by expanding its content, and under a different name, with collaboration of Gazi University and Adnan Menderes University, experiencing the excitement of organizing the 1st International Urban, Environment and Health Congress.

Our Congress will be held on 11-15 May 2016 in Turkish Republic of Northern Cyprus, at Kaya Artemis Hotel, where the environment and health problems of cities we live in, their solution proposals and sample applications issue studies with collaboration of those who are experts and managers in a wide range such as high level bureaucrats of the relevant Ministries, representatives of Union of Municipalities, executives and staff of Municipalities, environmental engineers, region planners environmental and health technicians, will be put on the table aiming at a common solution in principles.

Why should I participate at this Congress?

By participating at our Congress, you can show your sensitivity to environment, you can improve your products/services, and diversify your products/services range in line with the debated issues. Our Congress will provide you the opportunity to establish direct contact with all these groups, to increase the company’s exposure and to cooperate with decision-makers.

In this Congress, we expect to maximize the interaction between different scientific disciplines and academic groups, communication, unity. Congress sessions will be designed to give everyone this opportunity. You can also participate at our Congress as a debater on issues related to your area and/or for promotion by opening a stand, brochure distribution in Congress Bag, product distribution or promotion, and multivision show as well. Our Congress theme has been identified as Collaboration in Urban, Environment and Health. In this context, we will be happy to cooperate with your esteemed companies and your ideas to be shared with us.

We are inviting you to 1st International Urban, Environment and Health Congress with Harry Emerson Fosdick’s saying:

“Coming together is beginning, keeping together is progress, and working together is success!
Sincerely,
PRIZEDENT OF CONGRESS
